HODGSON HOUSES

FOR forty years Hodgson Houses have held a unique position in all parts of the world. Their inviting simplicity and harmonious lines appeal to people of good taste; and thus, with their attractive and well planned interiors, they have given enjoyment to people, in all sorts of circumstances, in all sorts of climates, under the most trying conditions.

The construction is simple. Made of enduring red cedar, in completely finished sections with windows in place, doors hung—in fact, all carpentry work and painting completed at the factory; and even the hard pine floors are sanded and shellacked before shipping; so that the houses are quickly erected by unskilled labor; or by our factory men.

Thus the purchasers of Hodgson Houses are saved much time, expense and the confusion and many worries connected building operations.

The Single Wall Construction (Fibre Lined) shows the frame on the inside, with a background of heavy waterproof fibre lining next to the cedar boarding.

The Double Wall Construction (Arctic Lined) is the same as the single wall with the addition of Arctic Board (Celotex) on the inside frame; on side walls, roofs, floors and partitions, giving a double wall with an air space between—more comfortable in coldest weather than a well built plastered house.

If interested, send for our large catalog showing many pictures of our houses and plans.

AFTER TWENTY YEARS.

"I will write a few lines, saying how much I have enjoyed my house for twenty years, and will send you a picture in the near future. Glad to do it."

MARY BOWDITCH FORBES, Milton, Mass.

HODGSON COTTAGE AT LAKE GEORGE, N. Y.

"The Hodgson Cottage I now have has been in use for the past three or four years, and has given me such excellent satisfaction and comfort that I would not consider going elsewhere now that the question has come up for me to move to another location, making it necessary to buy another house."

"The house is erected at Lake George, where, as you well know, we have very severe winters, but it has come through admirably—never leaks a drop of water and is apparently in as good condition now as the day it was erected."

EVANGELIN BOOTH,
Commander-in-Chief.

OGUNQUIT, MAINE.

"I feel that I ought to say to you that I regard my Hodgson cottage as one of the best investments I have ever made." JOHN KENDRICK BANGS.

TWENTY-FIVE YEARS AT NORTH
HAVEN, MAINE.

"Looking at your catalogue again, it occurs to me that you may be interested to know that the 10 room portable house which I bought of you twenty-five years ago, erected first at Mt. Kisco, New York, and then at North Haven, Maine, still stands apparently in as good condition as it was when I was a boy—or near it! The cottage is snug and comfortable."

"I only wish that I could live in it except for the briefest of holidays in the summer."

ELLERY SEDGWICK,
Editor of the Atlantic Monthly.

COLORADO SPRINGS, COLORADO

"Our Hodgson House is a huge success and is admired by everyone. It has created a great deal of interest both among our friends and Colorado Springs in general."

E. R. MATHEWS, 430 East 57th Street, New York City, N. Y.

JAMESTOWN, NEW YORK

"The Hodgson House you sold us 15 years ago is being used now and has been occupied every summer since without any repairs. We may buy another next summer."

"Mrs. Morgan and I are more than pleased with the Hodgson house which you supplied us. It is by far the most attractive and practical we have been in, in our twelve years of married life." W. FELLOWES MORGAN, JR.

LOCATED AT ALEXANDRIA, MINNESOTA.

"I may say that the cottage and garage, which you forwarded me, have been found to be highly satisfactory, as I found that everything you sent complied fully with your statements and representations, and I think the best statement I can give you is if I were to start again to build a summer cottage I would repeat the order and use your portable cottage and garage, as they have been entirely satisfactory in all respects."

EDW. H. CHANDLER, Tulsa, Okla.

SEVEN YEARS IN THE ADIRONDACKS.

RED CEDAR BLUFFS, OSTERVILLE, MASS.

"Mrs. Andrew Carnegie of New York has enjoyed many of your delightful houses in the past. She now requires a play house for her grandchildren and she will be obliged if the Hodgson Co. will deliver one to her at Osterville, Mass."

OWENOK FARM, GREENWICH, CONNECTICUT.

"Your houses have contributed to the happiness of every member of my family. I bought the first one many years ago as a Birthday present for my eldest daughter, then a very little girl."

"Her happiest childhood memories are associated with that house, and today it brings the same enjoyment to her children. Through all the years it has stood the brunt of winter and summer storms, never needing a repair, and one certainly could not ask for a better example of good and enduring workmanship."

"I anticipate the same satisfactory service from the bath-house, a purchase of more recent years, which is already the source of the greatest comfort and enjoyment to all who use it."

"With every good wish for the continued success of your 'happiness' houses."

Doll Play House

No. 3396

YOUNG people love this little play house. It is a doll house, yet a play house because there is ample room inside for a child up to 12 years of age to play in, and a place for all her doll's belongings.

It is as practical used outside as in the nursery. It is weather tight and made of the most durable materials, and well painted. It has a door and three windows and a hardwood floor which is shellacked. It is very complete and attractive.

Size 3 ft. wide by 4 ft. deep, and 6 ft. to peak of roof. Price \$55.00.

PLAY BOATS

THESE boats are made in two sizes, one for the children, the other for the fellow who likes to go fishing with a boat that is easily carried on the running board of an auto. Both are made of clear cedar, put together with galvanized hardware, and well painted. They are light in weight and easily handled, yet durable, and will last for years.

No. 1, about 2 x 6 ft.,
Price \$15.00

No. 2, about 3 x 8 ft.,
Price \$25.00

Shipped to you crated, including paddle, ready for use.

Hodgson Sectional Green Houses

THESE greenhouses are made of the best quality of red cedar, cypress and Oregon pine. They are thoroughly painted with the best lead and oil paints; being bolted together, the erection is quickly accomplished by a "handy" man.

The greenhouses are furnished with or without a heater room, as desired. When placed near a garage or house where heat can be supplied without an independent heater, the glass units only need be purchased, in which case a door is furnished in the end of the last glass unit.

The picture below shows the interior and layout of our Unit Greenhouses. There is a Potting Bench in the Heater Room and Plant Benches 30 inches wide by four inches deep along the two side walls and one end of the Glass Unit. Between the Plant Benches is a board walk, and under these benches are the four lines of hot water pipes. The Hot Water Heater is operated by coal and is automatically regulated.

The outfit is as complete and practical as it is possible to make it.

Floors: No floors are furnished with these outfits, for dirt, brick or cement are more practical than a wooden floor. Bricks simply laid in sand make an excellent floor.

INTERIOR OF A HODGSON GREENHOUSE

Glass: is only furnished when ordered. As the glass must be set after the building is erected, the purchaser has to have this done locally. We cannot be responsible for glass broken in transit.

If Vitaglass is wanted, it costs three times the price of glass.

HODGSON GREENHOUSE—ONE GLASS UNIT

Price without glass\$185.00 Extra for glass.....\$40.00

THIS picture shows a complete glass unit, having a door at one end. Such units are used when they are placed next to some building from which they receive their source of heat. If this is not possible, you should have one of our heater rooms as shown on pages 24 and 27, with an independent heater.

To this unit can be added a second unit of the same size for \$110.00, plus glass \$25.00.

The picture showing the greenhouse in the snow was taken on a zero morning outside, with a temperature of 60 degrees inside. One of these greenhouses will start many early plants to be set out after the frost is gone. The operating of our heating plant is very simple.

HODGSON GREENHOUSE—ONE GLASS UNIT AND HEATER ROOM

Price without glass.....\$270.00 Extra for glass.....\$35.00
Price of Heater with all necessary pipes cut to fit135.00
Price of metal chimney and smoke pipe installed..... 15.00

THIS picture and plan show a greenhouse of one glass unit and a heater room. To this can be added more glass units. The heater room is better shown on pages 24 and 27.

Our hot water heater which burns coal and is automatically regulated, is very simple and easy to operate, consuming but little coal. Four lines of hot water pipes run around all sides of the glass unit, under the flower benches. There is much useful space under these benches for planting; and additional shelves can be installed above the regular flower benches, greatly increasing the greenhouse capacity.

NOT A PANE OF GLASS BROKEN

"My greenhouse is up in place and I am much pleased with it. Everything was well packed, not even a pane of glass was broken. My son, who lives in Long Island, is so pleased with my greenhouse that he thinks of getting one a little later on."

MARY R. BRAMAN (MRS. C. R.),
The Knoll, Wyckoff, N. J.

HODGSON GREENHOUSE—TWO GLASS UNITS AND HEATER ROOM

Price without glass.....\$380.00 Extra for glass.....\$60.00
Price of Heater with all necessary pipes cut to fit.....153.00
Price of metal chimney and smoke pipe installed..... 15.00

THIS view of our greenhouse shows two glass units and the heater room, with the metal chimney. A brick chimney can be built after the greenhouse is erected at a cost of from \$20.00 to \$30.00, if preferred.

Our regular size heater will easily heat these two units, but if you intend to add more units later we would recommend the use of our larger heater, which will heat up to four glass units. This would eliminate the expense of changing the heater should you enlarge the greenhouse. The larger heater would add \$26.00 to the price of \$153.00 quoted above.

GARDEN OR TOOL HOUSE WITH GREENHOUSE AND KENNEL NO. 3402

The plan shows a Kennel Unit, but it can be had as a Poultry or Pigeon Unit at the same cost.

THE plan gives the measurement of the different rooms in this building, but either the greenhouse or kennel can be easily increased in size by adding additional units of the same size.

The main or central room makes a good work or tool room, office, wash or heater room, etc.

The greenhouse unit has benches as described and shown on pages 24 to 27.

GABLE ROOF COLONIAL GARDEN HOUSE 8 x 10 FT. TERMINAL MODEL NO. 3403

COLONIAL GARDEN HOUSES

ON this and the following page are shown our Colonial Garden Houses. One we call the Terminal model, as it is generally placed at the end of the garden; the other the Vista model, it being placed in the centre of the garden and open on both sides. In the Terminal we furnish a 10 ft. bench and in the Vista two 8 ft. benches.

FLORIDA CHAIR

One house shows the gable style of roof; the other a hip roof. You may have your choice at the same price for either model.

The benches and columns are painted white, the lattice and roof Colonial green.

The house is made in sections which are quickly assembled by the owner.

Price \$150.00

FLORIDA CHAIR

THIS chair is made to stand outside exposure on the lawn or porch. It is made of extra heavy clear cedar and put together with galvanized hardware and painted two coats of the very best paints, Colonial green. Without any doubt this is the most comfortable and durable lawn chair made. Under seat of chair is a magazine rack. Price \$15.00.

Price not painted \$12.00.

HIP ROOF COLONIAL GARDEN HOUSE 8 x 10 FT. (VISTA MODEL) No. 3404

Unit System—Can be Added to—Made of Cedar

A UNIT SYSTEM of construction is used in these houses making it possible to increase their size at any time. The floor plan shows a five unit house, although any number of units can be added at will. The five unit house is the most popular, and with good care, 200 laying hens will give excellent results in this house.

Each unit is made up of from four to six sections which are fastened together with our special key bolts, so that two inexperienced men can easily set up a five unit building (10 x 50 feet) in a day's time.

NO. 4 KENNEL. SIZE 12 x 48 FT. OFFICE AND FIVE KENNELS (MORE CAN BE ADDED)

HODGSON KENNEL NO. 4A

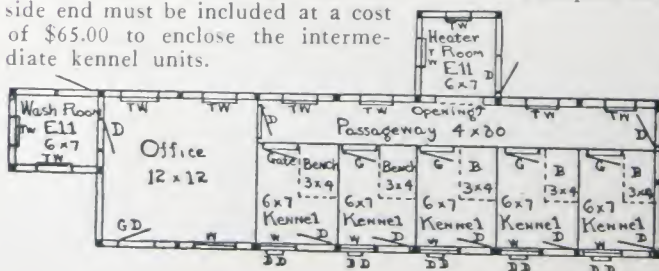

THE price of the 12 x 12 ft. office, also the price of each kennel, is itemized below, so that any number from one up can be bought. Each kennel contains a bench, one double-hung window, a dog door and a regular panel door in front. The partitions are boarded up solid some 4 ft. with about 3 ft. of fine square mesh netting above. The door or gate from passage to kennel is Dutch style. The passage is wide and roomy and well lighted by transom windows. The ells can be dropped if not needed, or increased in size to 7 x 12 ft. The building is furnished with a good hard pine floor, but if you prefer to put in a cement floor we will allow you for the wooden floor. The sides and roof are of red cedar and the interior woodwork is treated with a sanitary preservative. Painted three coats.

No. 4A Kennel:

12 x 12 ft. Office	\$334.00
Five intermediate Units, including passageway, partitions, benches, windows, doors, gates, etc., at \$160.00.....	800.00
Two 6 x 7 ft. Ells, at \$110.00.....	220.00

If the office is not bought an outside end must be included at a cost of \$65.00 to enclose the intermediate kennel units.

Complete as shown \$1,354.00

Plan of No. 4A Kennel showing arrangement of rooms. It can be added to at any time. It can be bought without the office or ells, and as many of the kennels as desired.

HODGSON NO. 4 KENNEL AT RED BANK, N. J., WITH OFFICE AND 12 UNITS

No. 4 Kennel: Plan B (central corridor)—5 Units

12 x 12 ft. Office	\$334.00
Five intermediate Units with ten kennel pens, including passage-way, partitions, benches, windows, doors, gates, etc., at \$180.00	900.00
Total	\$1234.00

If the office is not bought an outside end must be included at a cost of \$65.00 to enclose the intermediate kennel units.

The above plan No. 4B is similar to plan 4A on opposite page except that 4B has a central corridor with kennel pens on each side. This, of course, reduces the size of the kennel pens thus reducing cost per pen. There are two pens to every unit of six feet and the pens are large enough for the average dogs.
